AIRPLANE OFFERS

HAWKER BEECHCRAFT KING AIR C90B (9A-SET)

This efficient aircraft is powered by two 550-horsepower turboprop engines. It's designed with a flexible seating arrangement that can accommodate a single pilot and seven passengers or, if necessary, two pilots with remaining seating for passengers. The King Air C90B offers a range of 900 nautical miles and can reach a maximum flight altitude of 28,000 feet, facilitated by its pressurized cabin. This well-maintained 1994 model has logged 6,028 flight hours and 7,139 landings. Notably, in 2019, it underwent significant maintenance and a new paint job, resulting in excellent exterior and interior conditions.

HAWKER BEECHCRAFT KING AIR C90GTI (9A-LAN)

The King Air C90Gti shares many features with its C90B counterpart, including its seating configuration and two turboprop engines. However, it provides a more robust 750 horsepower output and an extended range of 1,000 nautical miles. This 2009 model has tallied 2,295 flight hours and 2,283 landings. The highlight of the King Air C90Gti is its cutting-edge Proline 21 cockpit equipment, comparable to that found in most modern aircraft.

PIPER PA-28RT-201T (9A-DLH)

This single-engine piston aircraft features a turbine and generates 200 horsepower. It's built to accommodate one pilot and three passengers comfortably. With a range of 500 nautical miles, it can climb up to an elevation of 1,000 feet. This 1985 model has accumulated 6,669 flight hours and 6,768 landings. Because of its efficiency and size, it's the ideal aircraft for taxi flights within Croatia and its neighboring countries like Italy, Montenegro, Austria, and Slovenia.

REIMS CESSNA FR172J (9A-BPR)

The Reims Cessna FR172J, another single-engine piston aircraft, delivers 210 horsepower. It also supports a seating arrangement of one pilot and three passengers. It has a range of 400 nautical miles and can ascend to a maximum of 10,000 feet. This aircraft, built in 1976, recorded 5,967 flight hours and a staggering 13,833 landings. The high-wing design gives it excellent visibility, making it the preferred choice for scenic flights over the islands.
