MANAGING DIRECTOR OF THE HOTEL AURORA

Lavender

(*Lat. Lavandula officinalis*)

The distillation of lavender flowers gives us the essential oil with its distinguished smell.

Lavender brings body and mind into balance and relaxes them deeply. It is excellent for calming down and, thus, is often used in blends for massage. Few drops of oil on the bed help with a pleasant and peaceful sleep.

Orange

(*Lat. Citrus reticulata*)

Orange peel provides essential oil with healing properties and beneficial effect on the human body. With a refreshing scent, orange essences have a positive effect on relaxation and mood elevation. Sprinkle few drops of oil on a pinecone and use it as a natural air freshener in workspace, car or apartment.

TRADITION

MYTHOLOGY OF GENESIS

Written Greek sources indicate that seafarers Argonauts, led by Jason, kidnapped daughter Medea and stole Golden Fleece from the King Etu. Running away from the pursuit of king's son Apsyrtus, Jason and Medea killed Apsyrtus by fraud, and casted parts of his body into the sea.

A legend says that the Osor islands, once merged Cres and Lošinj, arose from Apsyrtus.

A part of the legacy of ancient time is the antique bronze statue of Apoxiomen from the 2nd century BC, which was found in the sea, not far from the Veli Lošinj in 1999.

CENTENNIAL TRADITION OF HEALTH TOURISM

In the 19th century in Vienna, the Austro-Hungarian terrestrial government proclaimed Veli and Mali Lošinj as health resorts based on the number of positive analyses of climate and air. The unique climate of the island, rich vegetation and curative aerosol are beneficial to respiratory system, the growth and development of children as well as dermatological problems, which has been proven by numerous scientific studies. The rich and healing nature has been preserved to this day and the Hotel Aurora continues a long tradition of health tourism that makes Lošinj widely known.

LOŠINJ IN NUMBERS:

- 130 years of island's tradition in tourism
- For 125 years, Lošinj has held the title of climate healing resort
- Over 2600 hours of sunshine annually heat the island of Lošinj
- About 120 bottlenose dolphins live in the crystal clear sea around Lošinj
- Over 1200 different types of aromatic and healing herbs grow on islands of Cres and Lošinj, out of which 230 are healing ones
- 280 km of promenades and hiking trails spreads over five islands of the Lošinj archipelago
