# WHERE VACATION BECOMES FUN!

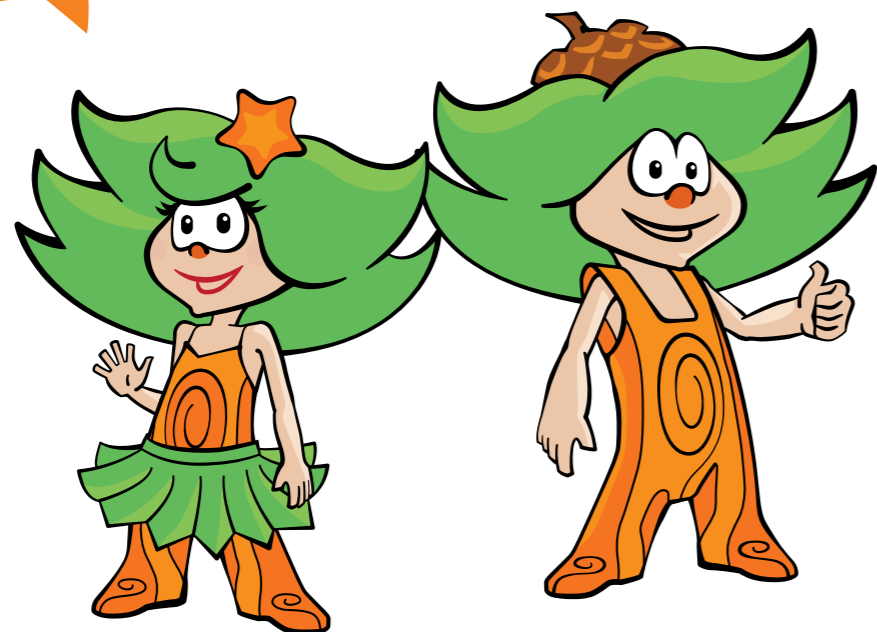

Vespera Family Hotel

Hello  
children and  
parents!

MY NAME  
IS PINETA!

MY NAME  
IS PINO!

### WELCOME TO THE MAGICAL LOŠINJ!

Allow us to introduce ourselves, we are Pineta and Pino and we are your hosts at the Family Hotel Vespera.

We are here to secure the best entertainment, as well as to make sure that you learn a lot of interesting information about our magical island, Lošinj.

LOŠINJ

Veli

Mali

For example, did you know that there are two towns of Lošinj – Mali and Veli (Little and Big)? And did you know that Mali Lošinj ("Little" Lošinj) is in fact a lot bigger than Veli Lošinj ("Big" Lošinj), although its name is Mali ("little"). Fun, isn't it?

**Our island has a rich history.** Lošinj's ships, captains and sailors were extremely brave, and sailed around the whole world. They brought back from their journeys various plants so now, on Lošinj, we can enjoy in lemons, but we can also see the sequoia trees. But that's not all, currently there are over 1,100 types

of various aromatic and healing herbs growing on our island. This is one of the reasons why you need to breathe deeply because the air is very healthy and helps children to grow!

**And do you know who else lives on Lošinj?** Small lizards, geckos, can often be spotted around in the

nature. And the friendly dolphins too, our most loyal friends. The sea around Lošinj is very clean and rich in fish, so we counted about 120 dolphins that swim and play here. Visit us, we will reveal you even more interesting facts, while play and fun will never end!

The entire hotel is designed for children so, from the Reception till the room, children can participate in all activities – check-in at the Reception or dinner at a restaurant in the area adjusted only to children. **Restaurant**  
A wide selection of dishes, local specialties and fresh fruits and vegetables

Spacious, comfortable family rooms in the Family Hotel Vespera are ideal for a holiday and long sleeping. In bathrooms, you can find natural cosmetics with essential oils of mandarin. Why mandarin? The aromatherapy considers it as the oil of "children's joy".

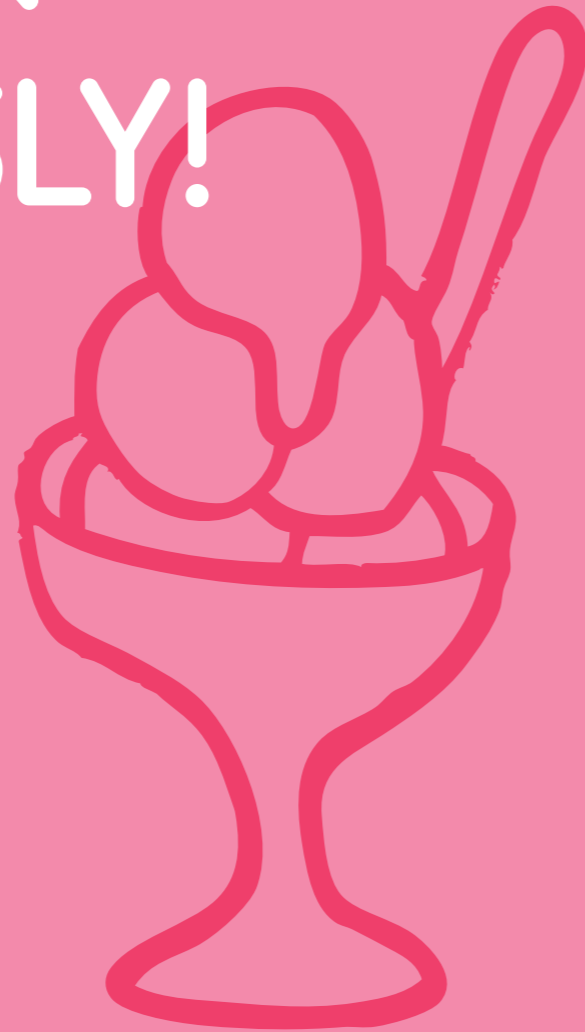

After a good sleep, fragrant shower, full of energy, you will be ready for playing and learning, acting, dancing, while the teenagers can compete in PlayStation or show all their skills in creative workshops under supervision of our animators.

While we are playing, mom and dad can relax and carelessly enjoy Aura Botanical Spa Garden at the neighbouring Hotel Aurora, soak up the sun on one of the beaches or taste the fine delicacies of the nearby restaurants and bars. In order to keep

the holidays in the most beautiful memory, we have to rest really, really well!

# PINETA AND PINO COOK DELICIOUSLY!

The little ones should have healthy and balanced nutrition in order to have the strength to play, but also to return home a little bit taller and stronger. Pineta and I with the help of our friends, top chefs, prepare delicious meals every day.

Healthy diet is full of cheerful colours, just like our hotel. For you, we will prepare lots of fresh fruits, vegetables, fish and meat, as well as delicious sweets and ice cream. For the smallest ones, moms themselves can prepare the meals that their children prefer because our "Moms'

corner" is equipped with bottle warmers, water heaters, a microwave and blender, and is available 24/7. We are the happiest when we see that you enjoy the meals because after that we can also carelessly play and enjoy many surprises.

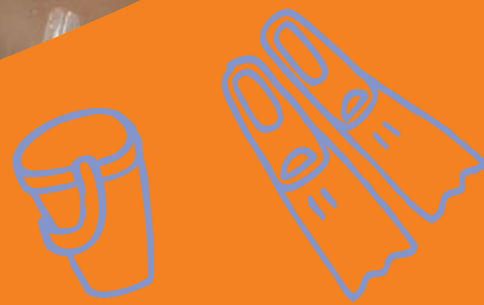

# FAMILY ACQUA FUN FULL OF SUN!

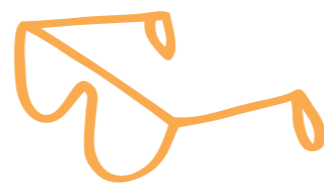

Aside from the sea, sun and beautiful stone and pebble beach, right next to our hotel, you can enjoy over 3.000m2 of the Family Aqua Fun pool complex with seawater. A large water world consists

of swimming pools with various entertainment features, such as water mushroom, water slide, clowns, Jacuzzi and waterfall. There is also a large sundeck in a form of a ship deck, deckchairs

and parasols, as well as a bar with refreshing beverages, snacks and ice cream. Family Acqua Fun is great place for all our little friends, and their parents. Cheerful atmosphere is present all day long, and

the greatest excitement is when a child learns how to swim. Then Pineta and I are very proud, too. When sun slowly starts to go down, play and fun are moving to the terrace of our hotel.

### FUN WITHOUT BORDERS!

After the delicious dinner, it is time for some more singing and dancing before bedtime. Children and animators perform cheerful acts, which were practiced together. Often, we are delighted to witness shows of true superstars. Pineta and I love that part of the day the most. We like to invite our dear friends, singers and dancers, to join and create with us fireworks of entertainment.

Then the terrace of the Family Hotel Vespera is bursting with joy! For us, it is very important that the children, but also parents, enjoy every moment of their holiday. That's why we created the Pino Club and a series of educational programs, entertainment and sports. For each child optionally, and for parents a little break and free time! When the kids tell us they had a great time and that they will return to Lošinj, Pineta and I grow of happiness!

### THE MOST FUN IS THE PINO CLUB!

Baby, Mini and Teen Club Pino is lead by our loyal colleagues, professional animators and graduate teachers. They take care that every day is filled with play, learning and fun. Our little friends from all over the world prefer to learn about pirates and captains, dolphins and the sea.

Playrooms are equipped with toys and furniture of top quality and for teenagers there is a special room for PlayStation competitions. Pino Club every year becomes one creative workshop where, next to laughter and play, you can hear various foreign languages and witness development of true artworks.

Do not miss the fun!

Welcome to the Pino Club!

# ANYONE AFRAID OF FISH?

## BREATHE, LEARN, ENJOY...

For all those curious ones who wish to explore sea bottom, examine the shore, count and meet dolphins, we prepared a special educational programme "Little marine biologists" in collaboration with

experts from the "Blue World" association. Pack a diving mask because you have to meet all of our residents if you want to boast that you spent your summer holidays on Lošinj. Pineta does not like diving

because it spoils her hair, but I have all necessary equipment - flippers mask, snorkel... For those with adventurous spirit, there are also numerous water sports, as well as biking trails, tennis courts, beach

volleyball, multipurpose court for football, basketball, and big outdoor chess. Should you wish to go bowling or rent a bicycle - just let us know.

Under the supervision of a physician, within our hotel, a "Little School of healthy breathing" is available for children from 5 to 18 years of age. It is well-known that Lošinj's air is healthy and that it contributes to the improvement of lung function, as well as airway

function. So, breathe deeply while you are on Lošinj!
